Male:	37
Non-binary:	0
From country 1 [Sweden]:	50
From country 2 [France]:	9
From country 3 [Germany]:	9
From country 4 [Poland]:	9
Total number of participants:	77
From total number of countries:	4
Description	
<i>Provide a short description of the event and its activities.</i>	

C-City aims to empower citizens in five European cities (Châteauroux/France, Gütersloh/Germany, Grudziądz/Poland, Falun/Sweden, Broxtowe/United Kingdom) for joint projects with their European partner cities. Through local running events in EU cities - combined with facilitated roundtables on the theme of this call - this project will increase understanding and inclusivity of the EU, targeting under-represented groups in international running events, such as people with disabilities, young people and those with limited travel resources.

The core of this project is an annual conference, first held in 2022 (Gütersloh) and 2023 (Châteauroux), which brings together the C-City project steering group and civil society members for collaborative idea development in workshops. The 2024 conference, held in June in Grudziądz, supported more diverse workshop participation and implemented an inclusive sports concept of four local running events - the first of which is the event in question here.

The target groups for this event were athletes from the four cities of all ages, all genders, runners with and without disabilities; the public is also invited to participate.

Agenda of the event:

Day 1: Arrival

Day 2: The race, public round table

Day 3: Departure

Athletes from Chateauroux, Gütersloh and Grudziadz travelled to Falun to take part in the run. They were welcomed by their Swedish hosts and together they became a visible and talked about (see press reactions below) C-City group in a running event with several hundred participants. EU funding made this kind of internationalization and diversification of a local, well-established running event possible.
